MONEY, BONDS AND STOCKS.

The New York Market Controlled by "Bears," with Lower Prices for Active Stocks. NEW YORK, Aug. 17 .- Money on call was easy at 14 @24 percent, the last loan being made at 2, closing offered at 2.

Prime mercantile paper, 4@64 per cent. Sterling exchange was dull but steady at \$4.844 for sixty-day bills, and \$4.87 for demand. The total sales of stocks to-day were 175,095 shares, including the following: Delaware, Lackawanna & Western, 8,100; Erie, 3,405; Lake Shore, 15,912; Missouri Pacile, 5,836; Northwestern, 11,905; New Jersey Central, 3,-750; Reading, 4,500; Richmond & West Point, 8,130; St. Paul, 35,470; Union Pacific, 9,310; Western Union, 21.507.

The stock market to-day was again controlled by the "bear" eperators, and, although the only unfavorable news consisted of reports of light Frosts in the extreme Northwest, no trouble was experienced in marking down prices. The trad ing was very light, however, and the brokers for the "bear" clique were the only prominent sellers of stocks, with the exception of a Chicago house, which sold 2,500 shares of Northwestern early in the day. The operations began with an attack on St. Paul shortly after the opening, and that stock declined in the first half hour. The Vanderbilt stocks were then raided, and no resistence was met in eithe Lake Shore or Northwestern. In fact, North west shows the greatest decline of any stock of the list, and it is the only one in which a de bline of more than 2 per cent. was recorded. When the "bear" selling orders were exhausted. as they were at intervals during the day, the market became dull, but strong and showed a tendency to advance, but fres pressure was put on whenever it rallied, and in the last hour an organized attack was made o all the active stocks, and prices declined with rush toward the close. In the final attack the Gould stocks were the chief sufferers, while the "coalers" had a firm undertone, and in one of th periods of duliness Lackawanna moved up above the opening figure. In the last hour all the active stocks shared in the depression and the market closed weak at about the lowest prices of the day. Northwest suffered the greatest loss from the day's business, and closed of per cent. below last night's final prices. Mismichigan Central, 1; Reading, 1; Western Union, 1, and others fractional amounts.

The railway bond market was weak, and sales were generally made at declining figures. The total transactions amounted to \$1,151,000, of which Reading second incomes furnished \$157,-000 and Atlantic & Pacific incomes \$141,000. The Reading issues declined \(\frac{1}{2} \) per cent.; Kansas & Texas consols fell 1, to 95; and the sixes, 1, to 651. The other changes were for insignificant fractions only.

Government bonds have been dull and strong. State bonds duli and without feature. Clos-

CHICAGO, Aug. 17.—While the situation to-day was regarded as very strong in wheat by the trade, the advance near the close of the session was but je. The greatest activity and the highest prices of the day came early. The foreign advices were bullish, and while prices of futures were quoted as tending upwards, spot wheat was I penny dearer in British markets. The "bull" news came from the seaboard and from the Northwest. At New York foreign houses were buying, and dispatches stated that only the heavy realizing on yesterday's purchases prevented a big advance. The news of very low temperature, approaching very near, if not quite, to injurious from in the Northwest, filled every one's ears. The opening was sensational, with prices about to over last night. The buying was so general that another to was added before 11 o'clock. Then there was a period of realizing, and September, after touching 84%c, le over last night, reacted to 84%c, and toward the close kept between 84% 284%c. Wheat closed steady, at about to advance. Corn was c higher for future contracts, after a fair volume of trading and a range of fully le for leading futures. As in wheat, the conditions made the crowd bullish, and opening prices were steady. When the cold-weather reports came so thick, early, the price of September moved up from 441e, the bottom. to 453c, the top for the day, in short order. There was a reaction to 45c and a drop to 442c, and the price closed at 44 c. The improvement in corn had a good effect on oats, which were strong, and closed with an advance of 10 c for pear futures. Mess pork was active, and prices covered a wide range. Opening sales were at 10@12 to higher, and advanced 20@25c more. The advance brought free selling by local traders, and a reaction of 10@12 to was recorded, and the market closed steady at intermediate figures. Lard was active and higher. Opening at .05c advance, a further appreciation of .10c was recorded, followed by a reaction of .02½ @.05c. Short ribs opened .07½c up, advanced .10c more, but receded .07½ @.10c, and closed

DUN & CO.'S REVIEW.

The Signs Are Favorable, and the Feeling

in Business Circles Is Better. NEW YORK, Aug. 17.-R. G. Don & Co.'s weekly review of trade says: The sales of the week are all more favorable, and, on the whole, the feeling has decidedly improved, and the actual situation also. An increase of 6,200 tons in the weekly iron output since July 1 is reported, a gain of nearly 6 per cent. This is partly due to the resumption of furnaces which suspended for a time in the summer for repairs, but some new and large works have swelled the output of coke iron to 74,825 tons weekly. There is no change in prices. Foundry irons are more firmly held, and, at Pittsburg, mill irons are 25 cents stronger. In all quarters a better demand is felt, and sales of ore at Cleveland are now large, while it is noteworthy that no advance appears in steel rails, though sales of 10,000 tons East and 14,000 tons West are recorded, besides Pacific coast contracts for 30,-000. The coal market is also strong and active, and an advance is expected about Sept. 1. The latest advices regarding the crops are favorable, because they indicate that the injuries undeniably sustained are not so serious as many appre-bended. While the harm done in Minnesota and Dakota has been great in some localities, the latest estimates from 1,200 points appear to justify the belief that the yield from increased acreage will be about as large as that of last year. So the gloomy anticipations as to cotton in Texas are met by telegraphic accounts of rains throughout the State and a better prospect, and it is explained that, with good weather hereafter, the State will exceed last year's yield. Speculation has entirely disregarded crop news, and cotton has been lifted a quarter, with better prospects of yield, just as hogs have risen 5c and lard 15c per hundred pounds, in spite of excellent prospects for corn, which was nevertheless hoisted yesterday, Wheat has declined over a cent, and the slow export demand is still the prevailing feature, though foreign crop advices are gloomy. The advices from interior points are more uniformly favorable as to actual business than for many weeks, with transactions exceding last year at many points. The clearing-house returns also indicate reviving activity, exceeding last years by 6.6 per cent. in the aggregate and 7.7 per cent. outside of New York, but much of this gain is due to greater speculative activity in stocks at Boston, in grain at Chicago and in cotton at New Orleans. Money is in ample supply for legitimate demands at nearly every point reporting, though quoted close at Nashville, and the improvement in collections lessens the number of complaints. At Kansas City an increased demand for money is noticed from interior merchants and farmers, with prospects of a large increase in the cattle movement; at Milwaukee business is active for the season, and increasing, as at Omaha and

Cleveland. In foreign commerce a decline of 18 per cent. in value of exports for two weeks from New York, and the decline of 334 per cent, in the value of imports here do not accord with the accounts of domestic trade. Imports, in anticipation of a change of duties, seem to have supplied the markets for the present, while foreign buyers, notwithstanding large prospective needs for the coming year, are too wary to hasten their purchases. The returns still show that the movement of foreign capital this way has not ceased, though the stock market has been weaker and uncertain in tone. The average of prices is \$1.50 per share lower than a week ago, and in some active securities unusual efforts to sell are seen. But in spite of great duliness, following an uninterrupted rise for eight weeks, the market has been comparatively steady until Friday, when a more rapid decline marked the opening. The Treasury has taken in about \$2,-800,000 more money than it has paid out during the week, notwithstanding an advance in the rates paid for bonds and an increase of \$1,000, 000 in the deposits with banks.

The business failures occurring throughout the country number 219, as compared with a total of 233 last week, and 216 the week previous to the last. For the corresponding week of last year the figures were 161.

INDIANAPOLIS MARKETS.

The Volume of Trade Quite Satisfactory for August-Prices Firm.

INDIANAPOLIS, Aug. 17. Trade in all departments to-day was fairly active, and in nearly all lines a firm tone to prices. Dry goods men were busy. A number of good buyers were in, and mail orders were numerous. In this department of trade everything looks promising. The stocks carried are large and well selected, and our wholesale men are meeting competition in prices made by other markets in a manner to excite favorable comment. Grocers report trade good. Sugars and coffees moving out freely at steady and firm prices. In fact, groceries, as a rule, are in strong resition and a big fall trade is in prospect. The produce markets are moving along in the rut of several days past. Poultry is coming in freely and prices are easier. Eggs are in good demand at quotations; the same is true of butter. The market is glutted with peaches. and some good fruit sold as low as 75c@\$1 per bushel. Pears, as well, are in large supply, but prices rule steady, with a good demand, more especially for Bartletts. Plums are becoming scarce, and prices are a shade higher. Apples in abundant supply at unchanged prices. Potatoes, tomatoes, and, in fact, all descriptions of vegetables, are in ample supply of home growth, and to name prices would be difficult. as the market men sell at figures which will enable them to dispose of their stock regardless of any quotations. Other markets present no new

The local market was in much better tone today and cereals almost without exception were firmer than on Thursday. Bidding on all the better grades was spirited. Track bids ruling

Lactated Food has made hundreds of twins healthy and happy, saving them sickness and their mothers worry and work. All babies who are bottle-fed, or whose mother's milk does not agree with them, should use Lactated Food. It will make teething easy, prevent or cure cholera infantum, and keep the babies plump and well in even the hottest weather.

Saved the "One year ago a little nephew and niece were Twins' Lives born in our family. Lacagreed with them once. The little girl, in six months after she began the use of Lactated Food, cut nine teeth, and the boy, six. In the last two months they have both added to these numbers. We are convinced that but for your Lactated Food we should have had no little twins to-day.

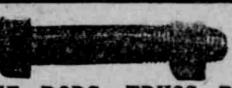

MRS. MINNIE IDA CHUBCHILL, Brockton, Mass "I am raising twins on The Twins Lactated Food. It is a most valuable food. My babies Fat as Pigs are now eleven months old, and as fat as little pigs." Mrs. S. Weir, \$957 Mt. Vernon Street, Philadelphia, Pa.

Twin Boys "We have twin boys born March 29th, 1887, sweet and Fat We have raised them on Lactated Food, and recommend it highly for babies, for it has made ours sweet and fat."

A. D. EARLS, Doudton, Kentucky. "My twin babies are now plump and pretty, but I do not think either would Twin Bables have lived had it not been for Lactated Food. I tried feeding them cow's milk, and they nearly died, when I began to feed them Lactated Food they improved rapidly. Pretty and are now doing well."
